This day of pre-conference workshops presents participants with the opportunity to focus on particular areas of interest and need, maximise the expertise of international presenters and derive greatest benefit from attendance at this special event.

PRE-CONFERENCE WORKSHOP ONE

TRAUMA-FOCUSED COGNITIVE BEHAVIOURAL THERAPY (TF-CBT) FOR TRAUMATISED CHILDREN AND YOUNG PEOPLE

This interactive workshop will present and explain the cognitive model of PTSD in children and young people. Theory will be outlined, evidence for TF-CBT critically considered, ethical and clinical dilemmas examined and case illustrations to demonstrate practise and outcomes used throughout.

Presenter: David Trickey, Consultant Clinical Psychologist and Lead Consultant Clinical Psychologist, Child and Family Trauma Services, Luton

PRE-CONFERENCE WORKSHOP TWO

COGNITIVE BEHAVIOUR THERAPY FOR YOUNG PEOPLE WITH DEPRESSIVE DISORDERS

The aim of this workshop will be to provide an overview of CBT adapted for the treatment of young people. The specific needs of young people and the contexts in which they live will be considered, the role of developmental and systemic/family issues in adapting therapy and in the formulation will be examined and a range of therapeutic techniques and strategies will be presented.

Presenters: Dr Chrissie Verduyn, Joint Clinical Director/Director of Clinical Psychology, Central Manchester University Hospitals; Dr Peter Fuggle, CAMHS Clinical Director, Islington North London and Professor Shirley Reynolds, University of East Anglia, Norwich

PRE-CONFERENCE WORKSHOP THREE

SYSTEMIC ASPECTS OF CBT WITH CHILDREN AND ADOLESCENTS – FROM THEORY TO PRACTICE

This workshop will encourage delegates to develop their skills in incorporating systemic factors in cognitive-behavioural formulation and develop an increased awareness of a range of strategies that follow from a systemic formulation. It will offer an opportunity to consider theoretical models for systemic CBT formulation and try out new techniques.

Presenters: Dr Nicky Dummett, Consultant Child and Adolescent Psychiatrist, Leeds CAMHS and Dr Anne Stewart, Consultant Child and Adolescent Psychiatrist, CAMHS, Oxford

PRE-CONFERENCE WORKSHOP FOUR

THE NATURE AND TREATMENT OF ANXIETY DISORDERS IN CHILDREN AND ADOLESCENTS USING THE COOL KIDS PROGRAMME

Using a combination of didactic explanation, video case material and demonstration of treatment components, this workshop will discuss the identification, nature and treatment of child and adolescent anxiety disorders using the Cool Kids Treatment Programme. Diagnostic criteria, demographic information, psychometric assessment, psychopathology and treatment will all be discussed.

Presenter: Professor Ron Rapee, Professor of Psychology, Macquarie University and Director, Centre for Emotional Health, Sydney, Australia

PRE-CONFERENCE WORKSHOP FIVE

NEW THERAPEUTIC DEVELOPMENTS IN CHILD CBT: DISORDER-SPECIFIC AND TRANS-DIAGNOSTIC APPROACHES

This workshop will present an overview of the current evidence for CBT as applied to childhood disorders and explore where CBT is currently heading. Using didactic teaching, case discussion and demonstration, delegates will learn what CBT includes and what it does not, and how cognitive theories and the so-called 3rd Wave CBT approaches are influencing child CBT.

Presenter: Dr Sean Perrin, Consultant Clinical Psychologist and Leader, Post-Graduate Diploma in CBT for Children and Adolescents, Institute of Psychiatry, London

17.30 Conference Close
Established in 1956 to advance the scientific study of child and adolescent mental health, the Association for Child and Adolescent Mental Health (ACAMH) is unique in its inclusive approach to disseminating knowledge and education in a multi-disciplinary environment which promotes evidence-based practice. Membership of ACAMH provides a relevant, accessible and affordable range of benefits, access to a diversifying and developing mix of initiatives, activities, publications and academic events aimed at facilitating continuing professional development, and an internationally-based group of like-minded professionals. The extensive range of benefits includes:

- strong national and local network of branches
- training, initiatives and opportunities for continuing professional development, including access to members-only advanced Master Class Series
- opportunities to develop new skills, raise professional profiles, liaise with eminent speakers and set up special interest groups to advance particular areas
- access to good practice guidance, advance insight into the latest developments in the disciplines
- interactive website with virtual discussion forums, external links and up-to-date information
- monthly issues of the high-impact-factor Journal for Child Psychology and Psychiatry
- quarterly issues of the practitioner-based Child and Adolescent Mental Health
- quarterly issues of The Bridge membership newsletter
- electronic access to all ACAMH publications, including “current issues”, “early access” ( ie articles before they appear in print) and all past issues
- early notification of ACAMH events and concessionary attendance rates
- members-only conference bursary fund for overseas members based in developing countries
- reduced rates for hiring of conference facilities at ACAMH’s London Head Office
- the only British affiliate to the International Association for Child and Adolescent Psychiatry and Allied Disciplines (IACAPAP)

Already with over 7500 members, including nurses, counsellors, psychologists, psychiatrists and other health professionals as well as students and trainees, the British Association for Behavioural and Cognitive Psychotherapies (BABCP) continues to grow rapidly as interest in CBT expands and the Government funds a £170 million network of centres. Activities, attributes and benefits are multi-faceted:

- only organisation in Britain which accredits CBT therapists
- forum for discussion with CBT users, carers and researchers
- up to £15,000 available in research grants
- lively network of branches and special interest groups
- copies of CBT Today; a new e-journal, tCBT; and the Behavioural and Cognitive Psychotherapy journal
- annual and spring conferences
- latest job and training opportunities
- discounts on publications
- automatic membership of the European Association of Behavioural and Cognitive Therapies (EABCT)

The BABCP Child, Adolescent and Families Special Interest Group is a unique forum which aims to co-ordinate the provision of teaching and training events to all those engaged in delivering CBT to this specialist client-base. The Group:

- ensures the provision of a variety of training events aimed at people with different levels of expertise in CBT with children
- encourages an ethos of discussion and sharing of ideas to promote the development of this field
- provides access to a range of resources covering the spectrum of theory, research and clinical techniques and practice
- brings the CBT community to users of CBT, therapists, clinicians and all interested in mental health issues
